

The [Cognitive Development Center](#) at the Central European University is pleased to announce the fifth annual [Budapest CEU Conference on Cognitive Development](#) in Budapest, Hungary (January 7-9, 2016). BCCCD is the only annual conference entirely focused on cognitive development in Europe. Submissions from all areas within this field of research are welcome. Past BCCCD conferences included presentations on topics such as comparative cognition, cognitive bases of culture, conceptual learning, early social cognition, language, methodological issues, numeracy, or object cognition.

Denis Tatone, Nazli Altinok (Conference chairs)
